DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/14/05 has been entered.

Claims 1-8 and 32-43 are pending in this application.

Claim Rejections - 35 USC § 103

2. Claims 1-8 and 32-43 are again rejected under 35 U.S.C. 103(a) as being unpatentable over combined teachings of Jeffrey et al and Fang et al, all for the reasons of record.

Instant claims are directed to stereoisomer of the compounds of claim 1 and thereby dependent claims.

Applicants' arguments were fully considered and were not found convincing. Applicants argue that Jeffery fails to teach claimed compounds, as compounds 4 and 5a disclosed by the reference are not stereoisomer as claimed herein. Applicants further allege that Fang does not cure this deficiency because Fang does not teach or suggest the claimed compounds. Furthermore, applicants urge that there is no motivation to combine the two references to arrive at the claimed compounds. Finally, applicants

contend that the examiner is wrong in stating that " stereoisomer are obvious over racemates and method to prepare stereoisomer are ... well known".

The examiner would like to point out that again, that stereoisomer is prima facie obvious over racemate, as a whole, absent evidence to the contrary. In re Adamson et al, 275 F2d 952, 125 USPQ 233; Brenner et al v. Ladd. Comr, Pats. 147 USPQ 87 ; In re Williams, 80 USPQ 150.

The examiner has not seen any where, in the instant specification, any unexpected results and applicants have not argued in terms of any unexpected results, and claims are unpatentable.

3. This is a RCE of applicant's earlier Application No. 09/998,195. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
